

IMPREGNATED SILVER CLOTHS AND MITTS

The quickest and most convenient silver cleaner around!

These 100% cotton cloths are impregnated with specific silver cleaning agents that effortlessly remove light tarnishing, leaving your silverware sparkling. They can be used on both sterling silver and plated articles, giving a quick and efficient solution to your silver care. As they contain a specialised blend of microfibres that absorb both oil and dirt, they will leave your silver articles looking lustrous, shiny and as good as new.

A Mitt version of this cloth is also available that contains a unique range of anti tarnish agents, designed to give your silver a long lasting shine. Not only will they protect your silver but also your hands due to their delicate lining.

- **Easy to use leaving a brilliant shine**
- **Does not require an additional cleaning polish**
- **Cloths and Mitts need to be used dry, for light tarnish**
- **Can be used repeatedly and should not be washed**
- **Mitts available in one size. Cloth size 31.5cm x 42.5cm, or to your request**
